Simone Hassan

Email: simoneubax@gmail.com|LinkedIn:https://www.linkedin.com/in/simonehassan/ |
Place: Bournemouth

A fully certified Front End Developer after studying a course by Learning People. I'm a diligent and enthusiastic person who is skilled in HTML, CSS, and JavaScript plus modern libraries and frameworks. Excels at creating pixel-perfect designs and working with cross-browser compatibility issues. Programming to deliver immersive and engaging user experience through efficient website development, version control and testing, proactive feature optimization, and relentless debugging, implement visually appealing and functional design elements. After learning the API course, I gained new skills to create a working piece of software that is easy to communicate with the user and help the company achieve its software development goals.

Projects

Details of my personal projects on my Github : https://github.com/Hawadacirka

Project title: Calculator
Technologies: HTML/CSS/JavaScript/Bootstrap

Brief description: I designed a calculator with pastel colours on the web page. It is like machine calculator with colourful style.

Project title: Ecommerce Ari
Frameworks/languages: HTML/CSS/JavaScript/Boxicons(Icons)
Brief description: I made a responsive shopping website about essential oils.

Project title: Sounds boxes
Frameworks/languages: HTML/CSS/JavaScript
Brief description: A melody can be created by clicking several genres of the music at once.

Project title: Pairs Game
Frameworks/languages: HTML/CSS/JavaScript/Bootstrap
Brief description: You should find the same pairing cards with limited chances.

Project title: Blackjack
Frameworks/languages: HTML/CSS/JavaScript/Bootstrap
Brief description: Playing blackjack is similar to maths, in that both involve solving problems.
